Dinner Presentation

6:00—7:30 p.m.

Presentation

The American Recovery and Reinvestment Act
Strengthening The Colorado Economy

**What The Stimulus Package
Means To Colorado Construction**

presented by

Matthew Cheroutes

Director Communications & External Affairs
Colorado Office of Economic Development

**BPI—Business Practice Interchange of the American Subcontractors Association has been developed so members can share actual business practices in our area. This network will provide information to help subcontractors who commit their resources to a project, make more informed business decisions.*

Because construction subcontractors perform more than 80% of the work on a construction project, join us and learn how the stimulus dollars will impact your business. Subcontractors will hear about how Governor Ritter's Administration will be using these financial resources to grow Colorado, more specifically how will Colorado subcontractors be able to participate in the stimulus package.
